

Welcome video transcript

Hello. I'm Doug Renalds, from the Student Success Center. My primary role at UT is to work with students on academic probation.

Here at the Student Success Center, we are committed to your academic success. Our student body is the most talented in our history. So if you have gained entrance into UT, you certainly have what it takes to graduate from here.

Your graduation and growth is the Student Success Center's primary objective. Your future is our vision. Your success is our mission.

Toward that end, I would like to welcome you to the Academic Success Modules. All students freshly placed on probation are required to go through these modules and meet with an Academic Coach in the Student Success Center twice during the next semester.

The overall goal as you complete these modules is to understand what it is to be on probation and how to get off of academic probation.

So, what can you expect from this course?

You will complete four short modules. The first is on academic policy and what it means to be on academic probation. The second is on improving your grade point average. The third is on UT resources, and the fourth is on next steps.

At the end of each module, you will take a short quiz to show your understanding of the material. On each quiz, you will need to earn 80 percent. You can retake quizzes in order to achieve mastery.

After completion of the modules, you will be able to identify your academic standing and the GPA requirements needed to return to good standing. You'll also be able to implement strategies for boosting your grade point average. You'll be able to access the services of campus resource partners who can help you to be successful. And finally, you'll be able to meet with an academic coach, one-on-one, to talk about your specific strategies for success this semester.

With these learning objectives in mind, we look forward to working with you to overcome the challenges that lie before you.

Let's go ahead and get started.
